HEART FAILURE AT THE SHOE XI:  
CARDIOPULMONARY FAILURE — EVOLVING CONCEPTS AND THERAPIES TO IMPROVE OUTCOMES

Many patients with advanced heart failure have evidence of significant pulmonary hypertension, which complicates their management and outcomes. Pulmonary hypertension, either as a primary issue or as a secondary problem, often limits therapeutic options for these patients and ultimately limits the ability of healthcare professionals to manage the problem and improve patient outcomes. In an effort to address the needs of our patients and providers in the field, this program endeavors to examine the clinical manifestations, pathophysiology, and the medical and surgical management of pulmonary hypertension. Gaining further insights in this regard has been identified as a major healthcare need and will enhance the ability of healthcare professionals to manage pulmonary hypertension.

Objectives:

At the conclusion of this activity, participants should be able to:

- Describe the evaluation and management of patients with pulmonary hypertension secondary to advanced cardiac and pulmonary disease
- Identify the conventional management of pulmonary hypertension in medical/surgical patients
- Review the advanced medical and surgical therapies for pulmonary hypertension including pharmacologic, conventional and advanced interventions (i.e., LVAD therapy and transplantation)

To register, visit go.osu.edu/shoexi

Agenda

11:30 a.m. Registration
Noon Welcome/Introduction
Garrie Haas, MD and Robert Higgins, MD, MSHA
12:05 p.m. Overview of the Problem: Pulmonary Failure in Cardiac Disease
Robert Higgins, MD, MSHA
12:20 p.m. Pathophysiology of Pulmonary Hypertension
Garrie Haas, MD
1 p.m. Pulmonary Hypertension Treatments in Heart Failure Patients
Veronica Franco, MD
1:40 p.m. Break/Visit Exhibits
1:55 p.m. Evaluating Patients with Either Primary or Secondary Pulmonary Hypertension
Keith McNeil, FRACP
2:55 p.m. Evolution of Novel Surgical Management in Patients with Pulmonary Hypertension
Robert Higgins, MD, MSHA
3:35 p.m. Current Management of Pulmonary Hypertension in Surgical Patients
Bryan Whitson, MD
4:10 p.m. Tales from the Clinical Front
- Ayesha Hasan, MD
- Lee Jordan, MD
- Rami Kahwash, MD
- Ahmet Kilic, MD
- Paul Moodispaw, MD
- Thomas Papadimos, MD
4:55 p.m. Adjour

The Ohio State University Faculty

Veronica Franco, MD
Director, Exercise Physiology/Metabolic Exercise Testing Program
Assistant Professor, Clinical Internal Medicine

Garrie Haas, MD*
Section Director, Heart Failure and Transplant
Professor, Clinical Internal Medicine

Ayesha Hasan, MD
Medical Director, Cardiac Transplant Program
Director, Heart Failure Devices Clinic
Associate Professor, Clinical Internal Medicine

Robert Higgins, MD, MSHA*
Director, Ohio State’s Comprehensive Transplant Center
Director, Division of Cardiac Surgery
Professor, Surgery

Rami Kahwash, MD
Assistant Professor, Clinical Internal Medicine

Ahmet Kilic, MD
Assistant Professor, Surgery

Thomas Papadimos, MD
Professor, Anesthesiology

Bryan Whitson, MD
Assistant Professor, Surgery

*Indicates Course Director

Guest faculty:

Keith McNeil, FRACP
CEO, Metro Health North Service District
Professor of Medicine, University of Queensland
Brisbane, Australia

Paul Moodispaw, MD
Wooster Heart Group
Wooster, Ohio

Lee Jordan, MD
Director, Heart Failure Program
Riverside Methodist Hospital
OhioHealth
Columbus, Ohio

Registration:

To register, visit go.osu.edu/shoexi or mail your completed registration form to:
The Ohio State University Wexner Medical Center
Davis Heart and Lung Research Institute
