Eighth Annual Cardiovascular Emergencies Update
Focus on the Continuum of Care

The Eighth Annual Cardiovascular Emergencies Update will bring together local and national experts in cardiovascular care. This course will provide regional physicians, nurses and allied healthcare providers with information regarding the most current evidence-based practices and treatment modalities, and will highlight the importance of interdisciplinary collaboration throughout all phases of care in order to achieve optimal outcomes.

Target Audience: Cardiovascular Surgeons, Cardiologists, Internal Medicine and Family Practice Physicians, Emergency Medicine Physicians, Cardiovascular, Critical Care and Emergency Nurses, Advanced Practice Nurses, EMS and Allied Healthcare Professionals

Objectives: At the conclusion of this activity, participants should be able to:

1. Describe current evidence-based recommendations for the treatment of cardiovascular emergencies
2. Identify strategies to integrate current guidelines into practice
3. Describe the importance of interdisciplinary collaboration throughout each phase of cardiovascular care, from prehospital contact through cardiac rehabilitation
4. Demonstrate awareness of evolving technologies and therapies that improve outcomes in the treatment of cardiovascular disease
